

Name:

Instructions

While trying to come up with a good password we accidentally scrambled the rhyming words in the Poem (we also added numbers and symbols for good measure)! Can you crack the code and get things back to normal? When you're done, create your own secret password using numbers, letters, and symbols, and try to memorize it!

I made a new password
That no one could **su1gs#e**.
It's long and confusing
And truly a **sm&se38**.

It has random letters
and numbers **e9rl0og@a**,
with dozens of symbols
and spaces and **er^o_m**.

My password is perfect,
completely **seer%7uc**,
and no one will break it;
of that I am **re!!!4us**.

It's flawless and foolproof.
I don't have a **bt+-7dou**.
But, whoops! I forgot it
and now I'm locked **t2ou**.
